Ethos Bridge Scholarship

Late Shri. Vishnu Waman Thakur Charitable Trust's

VIVA School of Architecture

? ethos !!
www.ethosempowers.com

Ethos Bridge Scholarship 2021-22 Award

Neha Das
THIRD YEAR
WINNER

Project Bridge is a scholarship program wherein students of architecture are encouraged to follow their dreams with no encumbrances. We are looking at extending our support to promising students who want to take a step ahead into the future, into our future! We are looking to build more leaders who are ready to ask the right questions and then earnestly work in the direction of finding their answers.

As Rabindronath Tagore once said, "Age considers, Youth ventures." Project Bridge aims at tapping this curious nature of the youth. The intention of these scholarships is to lend a helping hand to those students of architecture who are really passionate about the field but are facing constraints that are obstacles in their path to emerging as well-rounded professionals.

Congratulations on winning the Ethos Bridge scholarship 2021-22. You are awarded an amount of Rs 15,000 towards your academic fees.

The scholarship celebrates the spirit of "Pay it forward" wherein STUDENT RECEIVES SCHOLARSHIP > ESTABLISHES SELF > GIVES SCHOLARSHIP TO A STUDENT and the cycle continues.

I, Neha Das of VIVA School of Architecture, Thane have been awarded the Ethos Bridge scholarship for 2021-22. I agree that once I enter the professional field and establish myself, I will support at least one scholarship of a similar amount to another student in need, whose application will be validated by Ethos.

Year:2022

Sustainable house design competition

ALL ABOUT ARCHITECTURE (SUSTAINABLE HOUSE DESIGN)

In today's world it is impossible to find a house, but nearly impossible to find a sustainable, money-friendly home and comfortable to live in. Our clients are a family of five people. Major need of the design is the sustainability factor. So considering the above factors we are designing a ground structure.

CONCEPTUAL FORM DEVELOPMENT

Zoning of activities responding to the climatic conditions and views was achieved with the use of levels leading to a single yet distinct living room, kitchen and dining. South-west position of master bedroom provides shade to courtyard and keeps water body cool.

The positions and sizes of the openings are dictated by climatology, ensuring natural light, cross ventilation and passive cooling.

SITE PLAN

4th YEAR BATCH-2019 NISHITA MORE, UPASANA PATIL, SAKSHI MEHER

VIEWS

INSPIRATION/ IDEA

Taking inspiration from architect Laurie Baker, we used techniques like rat-trap bonds brickwork, filler slabs, brick jalis, brick arches, built-in furniture, and the use of local material. These proved low-cost and eco-friendly technologies.

MATERIALS

BRICK: RAT TRAP BOND

The purpose of using this type of masonry bond is to reduce the number of bricks and mortar required as compared to the other brick bonds.

BRICK JALIS:

A jali is a traditional Indian perforated screen. Can be used as an external feature wall; a way of providing sun protection or as a screen for privacy.

LILY WATER COURT:

Such water courts create a cooling system as well as create aesthetic views for the viewers.

SECTIONS

SOUTH ELEVATION

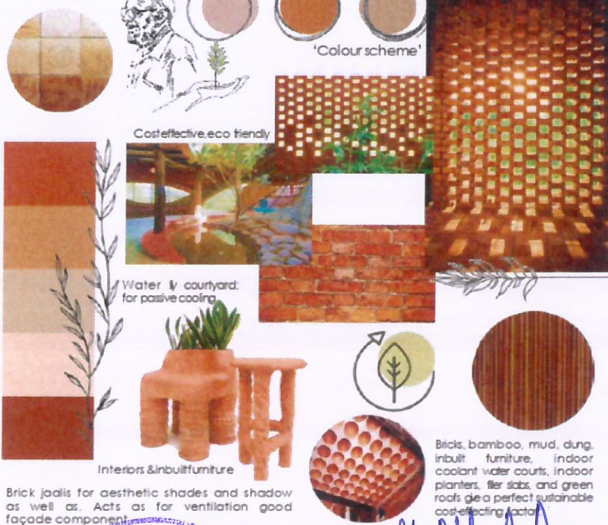

EAST ELEVATION

WEST ELEVATION

MOODBOARD

'Colour scheme'

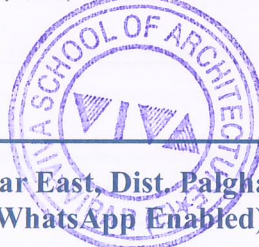

Cost effective eco friendly

Water & courtyard for passive cooling

Interior & built furniture

Brick jalis for aesthetic shades and shadow as well as. Act's as for ventilation good facade component

Brick, bamboo, mud, dung, built furniture, indoor coolant water courts, indoor planters, filler slabs, and green roofs are a perfect sustainable cost-effective factor

To,
Dear Participant,
Neha Nimal Das, Viva School Of Architecture, Shirgaon and
Biswajit Mondal, MRSPTU, GZS School of Architecture and Planning

The BVDU COAP Heritage Cell in its year of inception ,2022, kickstarted its activities with the
Launching of
*National Level Student Poster Competition-22 : Documenting The
Intangible Heritage*

The brief appealed to all the Architecture and Design students from all parts of the country to
Identify ONE Intangible Cultural Heritage Practice and/or expression from their region and
Document its significance, background, procedural aspects and traditional systems
associated. The response was overwhelming with 33 registrations. It was unanimously
decided by the judges that

Best 4 Entries To Be Awarded (in no order of merit)

Your Entry titled ' Santhali Folk Dance '
Is being awarded with a prize of rs 3000/entry and a certificate each.

A Big Congratulations to You.
Do find a Certificate and a Cheque each attached with this letter.

We greatly appreciate your enthusiasm in participating in this National Competition and
making it a great success. We also extend our appreciation to the Heads of your Institutions
to have encouraged you to participate.
We hope for your continued participation in the forthcoming competitions and Conferences
organised by Bharati Vidyapeeth (Deemed to be University) College of Architecture, Pune 43.

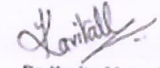

We wish you A very Happy New Year !!
Thanking You,

Mukta Latkar-Talwalkar & Swapnali Sutar
Organising Team.

RECEDENCE - TRULY SITE TO BEHOLD

SITE STUDY

Hands down, it is the most magical material you can lay your eyes on, Krong Tui is cut off from the tourist route. Located in the jungle hills, it takes a while to get there from Kihling, which is the capital of Meghalaya.

Krong Tui is blessed with shimmering blue waters and sparkling sunlight. The heady mixture of nature is sometimes known to create a rainbow. It's truly a magical pool in nature's wardrobe.

Nearest Town: Aizawl (60km)
Dist. Office: 14 kms via NH and 100 kms via NH20A
State Capital: Shillong (200 kms, Shillong Airport 50 kms, Guwahati Station 120 kms)

CLIMATEOLOGY

It lies on the windward side of the Garo Hills, so the resulting orographic lift enhances precipitation. In the winter months, it receives the northeast monsoon showers that travel down the Shillong valley. The drier months are November, December, January and February.

One of the world's wettest regions is found in Meghalaya—Cherrapunji, which has an average annual precipitation of about 4,000 inches (1,016 cm) during monsoon season (from May to September).

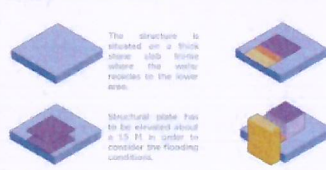

SITE PHOTOGRAPHS

CONCLUSIVE ANALYSIS

Site has seismic zone II earthquake and has many opportunities as it offers nature's interference as a large scale. The site conditions makes it interesting to make a habitable area but can be used by new constructive techniques which will make the structure earthquake resistant. Provision of expansion joints allows the mobility of structure during an earthquake. And many mix use of materials allows this structure the end use and emissions for eg. Use of glass concrete aggregates. And extensive use of glass is done where double glasses are used as they permeate within the veins and allows restorative shade of wood.

FORM DEVELOPMENT

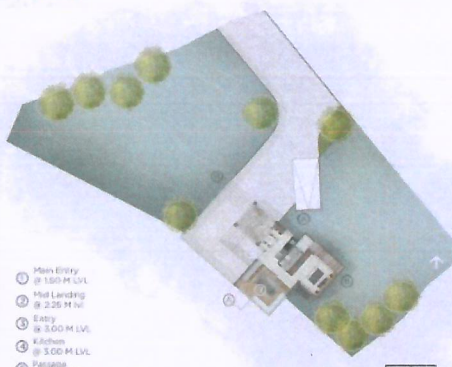

The structure is elevated on a brick base also brick above the water recedes to the lower area.

Structural plate has to be elevated about a 15 ft in order to consider the flooding conditions.

The elevated structural plate is divided into areas according to the usage of the client.

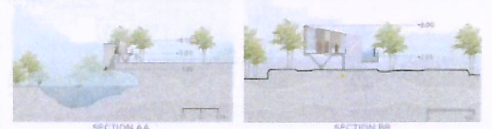

These segregated areas uses varied heights to allow blend of nature within the structure and to create an elite class experience.

SITE PLAN

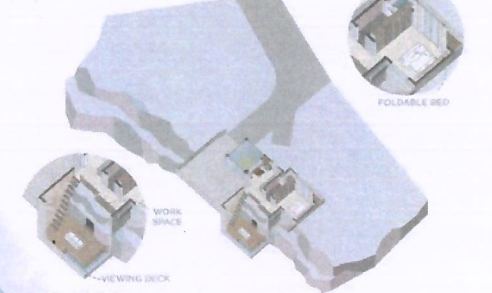

- 1 Main Entry @ 1.00 M LVL
- 2 Mid Landing @ 2.25 M LVL
- 3 Entry @ 3.00 M LVL
- 4 Kitchen @ 3.00 M LVL
- 5 Passage @ 3.00 M LVL
- 6 Bedroom @ 3.00 M LVL
- 7 Living Room @ 1.5 M

The Residence X

Viveka Res City is a modern concept that represents an ecological and sustainable response to urban development. It is a multi-phased living environment that integrates modern architectural and sustainable practices, with a focus on greenery. At Viveka Res City, residents enjoy the best of both worlds - a modern lifestyle and a sustainable environment.

The project is designed with a focus on creating a vibrant, sustainable and green community. The project is designed with a focus on creating a vibrant, sustainable and green community. The project is designed with a focus on creating a vibrant, sustainable and green community.

The Living Tapestry: A City Reborn.....

The Living Tapestry: A City Reborn™ is a compelling narrative of Manar's resurgence, where the forgotten city's past intertwines seamlessly with its promising future. Join the enigmatic visionary on a quest to create a 15-Minute Smart City, where art, sustainability, and community unite. Through vibrant solar-powered streets, a cultural revival, and inclusive growth, witness the birth of a city that cherishes its heritage while embracing boundless possibilities.

*In Manar, where dreams took flight, A city blossomed, a brilliant sight.
A 15-minute marvel, smart and bright, With every need, within our sight.*

*Gardens bloom, enchanting gaze, Amidst the bustle, a tranquil oasis.
A river's Y, with waters grace, A vibrant pulse, a truly embrace.*

*Industrial zones, housing gears, Low, middle, high-income tiers.
Health and schools, where focus gleam, In noise-free zones, the heart endure.*

*Connected roads, a web of pace, Commercial hubs, where deals embrace.
Culture's treasure, a warm embrace, Old and new, in harmony's grace.*

*In Manar's heart, the people thrive, A city awakes, dreams alive.
A 15-minute smart city's drive, Where life and joy forever thrive.*

Mixed-Use Zoning: Plan the city to have mixed-use zoning, where residential areas are integrated with commercial, recreational, and institutional spaces. This allows residents to live, work, shop, and access essential services within close proximity.

Pedestrian and Bicycle-Friendly Infrastructure: Design the city with pedestrian-friendly sidewalks, well-marked crosswalks, and dedicated bike lanes to encourage walking and cycling as the primary modes of transportation.

Land Use Planning: Coordinate with developers to ensure that new projects align with the 15-minute city concept, avoiding urban sprawl and preserving green areas.

Green Spaces: Integrate parks, green spaces, and recreational areas throughout the city, providing residents with accessible places for relaxation, exercise, and community engagement.

Local Businesses: Support the growth of local businesses by encouraging small shops, markets, and services within each neighborhood. This not only fosters a sense of community but also reduces the need for long commutes to larger commercial centers.

15 MINUTE CITY

ZONING
Y-Shaped River and Riverfront Development
Efficient Road Network
Zoning for Different Communities
Noise-Free Zone for Schools and Healthcare
Amenities and Open Public Spaces
